✅ Test 1 — Connection Check (Resource Read)

Prompt: "What courses are available in the NIIT learning catalog?"

Expected: Claude reads the course_guidance or offering resources and returns course info (CRS-1001, CRS-1002, etc.)

✅ Test 2 — get_upcoming_offerings

Prompt: "What are the upcoming offerings for CRS-1001?"

Expected: Returns a list of offerings with dates, locations, status, and capacity.

✅ Test 3 — get_enrollment_status

Prompt: "How many learners are enrolled in offering OFF-2001?"

Expected: Returns enrolled count, waitlist count, capacity, and seats remaining.

✅ Test 4 — get_course_fee_info

Prompt: "What are the fees for CRS-1001?"

Expected: Returns fee structure with internal/external/JVN rates.

✅ Test 5 — check_course_billing_info

Prompt: "Who gets billed for JVN participants in CRS-1001?"

Expected: Returns billing owner, notes, fee structure, and escalation path.

✅ Test 6 — get_survey_report

Prompt: "Can you share the latest survey report for CRS-1001?"

Expected: Returns survey metrics — total participants, responses, response rate, average rating.

✅ Test 7 — get_express_interest_report

Prompt: "How many people expressed interest in CRS-1001?"

Expected: Returns demand data with total interested learners, regional breakdown, and CSV URL.

✅ Test 8 — get_attendance_evidence

Prompt: "Get attendance records for learner USR-3002 in offering OFF-2001"

Expected: Returns sessions attended, attendance %, pass/fail status, and evidence links.

✅ Test 9 — resolve_technical_access_issue

Prompt: "Learner USR-3002 cannot access Moodle — getting permission denied"

Expected: Returns a support ticket reference, assigned team, and estimated resolution time.

✅ Test 10 — process_loi_request

Prompt: "LOI is not saving for learner USR-3001 in offering OFF-2001. Requested by

advisor@niit.com"

Expected: Returns issue-specific guidance, ticket reference, and status.

✅ Test 11 — book_training_room

Prompt: "Book a training room for 25 people on April 14, 2026 at Singapore Hub. Requested by

advisor@niit.com"

Expected: Returns room ID, booking reference, capacity, and next steps.

✅ Test 12 — create_offering_request

Prompt: "Create a new ILT offering for CRS-1001 from April 14–16 2026, 09:00 to 17:00, at Singapore Hub. Requested by

advisor@niit.com"

Expected: Returns request ID, status, and delivery-mode planning dependencies.

✅ Test 13 — reschedule_offering

Prompt: "Reschedule offering OFF-2001 to May 5, 2026. The faculty is unavailable on original dates. Requested by

advisor@niit.com"

Expected: Returns old/new dates, enrollment impact, and coordination status.

✅ Test 14 — reopen_survey_window

Prompt: "Reopen the survey for offering OFF-2001 until March 30 2026, response rate is too low. Requested by

advisor@niit.com"

Expected: Returns request status, effective date range, and approval info.
